I have just made the trip to Bt. Joseph and back, and I haston to acquaint you with the condition of things on the lime of the impactant thoroughfare which councies these two points. The bridge across South River that was burned by the rights is mostly excelled. Trains will pass over it to morrow noon. The small bridges that were fired were not damaged much, and a few hours' labor made them passable for trains. 35 'Capped'

here, and have named the pince Fort Monros, College Fort. At Crooked Crock Bridge there is a camp. There is also a camp at Madon City, the function of the North Musouri Rall-road. At Revere, the Union men, knowing how easily the which are frightened, have, mounted a store pipe on wheels. At a distance it looks very like a camon, and the people there told me they have no trouble, that it answered as well as a 9-pounder to Brighten. It answered as well as a 5-pounder to frighten rebels.

On the Chariden Bottom there is mostler camp of shout 100 men to protect the bridge there. At Muselfork Bridge, about 100 mills west of Hamilal, there is a camp of the 16th inhola Regiment. They have named it Camp Johnson. On Madison Bottom there is a camp of the lows & Regiment; also at Chillicothe and 8t. Joseph. Wednesday there was a company of 40 Union men came to Chillicothe under command of Capt. Robert McFertin, from Carnollion, Carnollicounty, to be sworn in as Home Guarda. They were stoni farmers and their sons, and were armed with sporting rifles and shot gums. The Captain informs ase that he thought there were about 80 Union men in the country who would come forward as soon as there was any show for protection.

Lieut. Thomas L. Jobe, of Capt. 'Allard's company, from Virginia, Cass county, Ill., as accidentally shot this morning. The impensy were out for drill, and he was incrucing them in the use of their arms, when company were out for drill, and he was instructing them in the use of their arms, when one of the muskets fell, and on striking the ground was discharged. The ball strick Lieut dobe on the backle of his belt, carrying in with it a piece of the buckle, and lodged mear his spine. He lived but two hours. He was laid out in his uniform, and will be taken to his friends to morrow.

There are several camps of robels about Hannibal, Palmurs and Monroe. They do their fighting on a run generally, and most of them are farmens or poor drunken wretches, who will do snything for whisky.

The trains on the Hannibal & St. Jo. R. R. will run regularly after to morrow. With the force now on the line of the road the Superintendent feels confident there will be no further obstruction to trade and travel, if the forces are properly distributed.

THE "GREAT EASTERN," BATES OF PASSAGE! were borne past. They were also followed by their regimental train, close spoe which came the New York Tist—a cruck regiment that disputes the palm with the popular 7th. With lines drawn with almost mathematical accuracy, close, serried, compact, marching to the manic with the regularity of a machina, this pet of New York brought up the rear. It was a galissi and stirring sight. This Britgale was led by Col. Burnalde, of the Rhode Island 1st, in whom Chicago, from his long residence in your city, has a share. It was a fostal day to him, this horse was loaded down with wreaths and bouquets which had been showered upon him as evidences of his own gallantry and the good conduct of his men. As he passed from trout to rear and back, the enthusiattic cheere by which he was greeted must have made him resolve to be worthy of the plandits he had wen. A turn in the street hid the rear from sight, and is half as hour the last mas and horse of the brigade were on the "secred-coll."

"God bless New England!" as they went. "If the is not the Mother of Presidents, she is the nappery of men!" masheen," before a binning in toll with the masheen," before a binning house, will make good "dire-enters." Col. White of this place has been spoken of as commander of this regiment. The Colonel is about fifty years old, measuring some five feet air faches, of cout, cain demantor, ready at command, firm in discipline, and yet very sociable and affable when off duty. We witnessed his review of Jameswille City Zomaves on Theaday evening, and were surprised at the quiet, though rapid enunciation of order after order, from a double quick evolution to a common time movement. Col. White never habis a company to make any change, but movements must be made just as securately he a double quick as from a halt. He has seen service since 1803, and possesses the subbunded respect and leve of the numerous companies which have been and are being drilled by him.

Cerr Directory for 1861 is to be issued to day to subscribers, by Messes, Balley & Haipin, the publishers. It is a nest and excellent volume, of whose issuing Resinues and merits we shall seath in a day or two. The mechanical execution of the book is excellent. The binder, Wilson, has made his share of the same most or ditable to himself. The embossed printing on the cover we begin is done by Mr.

Wilson, by a new adaptation of electrifying.
